OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

The latest Stack Overflow Survey was used to identify global trends. These global trends are crucial for informing sector area growth for the purposes of tech training expenditure:

- Programming languages:
 - Rust is an emerging skill requirement
 - Steady interest in top 5 languages
- Databases:
 - PostgreSQL will continue to dominate in skill requirement
 - Redis is forecasted to be in less demand

INTRODUCTION

The latest Stack Overflow Survey describes global trends relevant to:

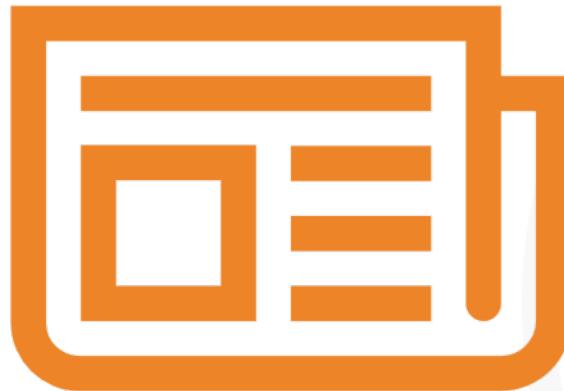

- Technologies in use
- Emerging technologies
- Demographics of technology users

Investigated tech landscapes:

- Programming languages
- Databases
- Platforms
- Web Frameworks

METHODOLOGY

Data Collection

- The global (Appendix A) Stack Overflow Survey results are publicly available as a third-party dataset
- Popular language data was collected by web scraping
- Job postings data was collected using third-party api

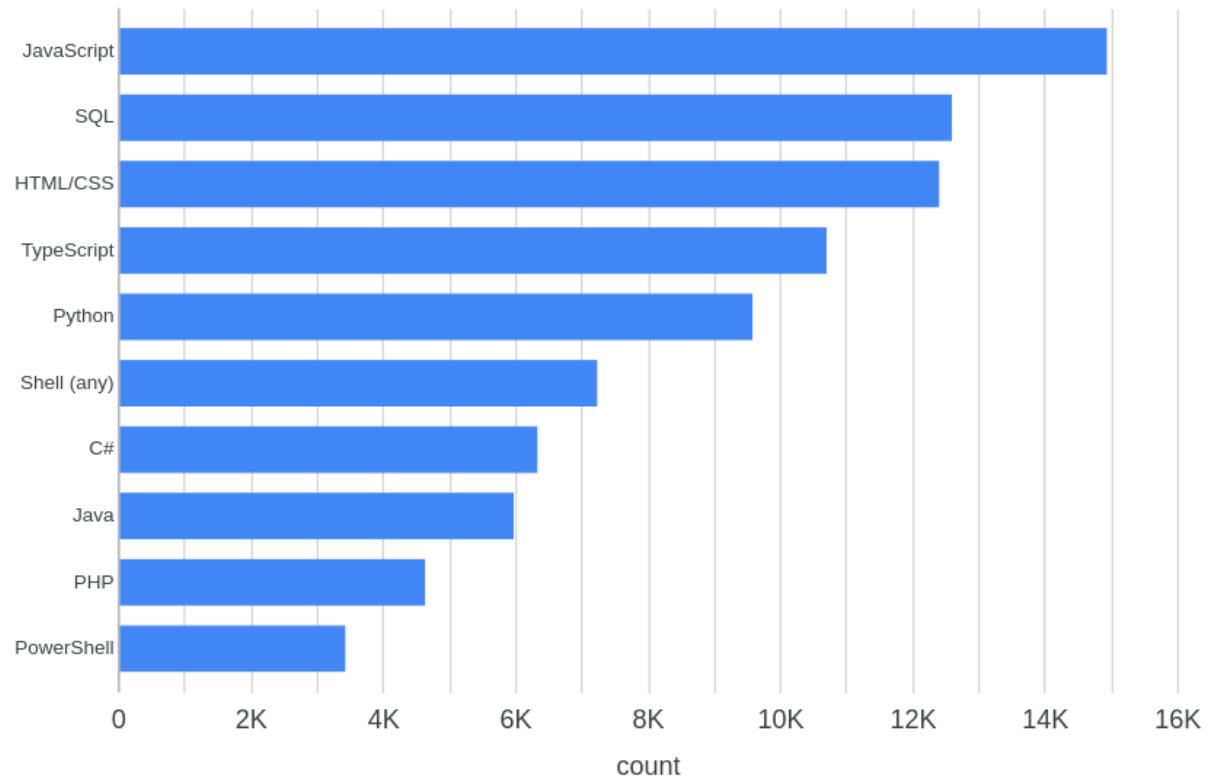

Data Wrangling:

- Cleaning – duplicates and missing values handled
- Normalizing – key data points were normalized
- Discovery – outliers were handled and correlation investigated
- Transformation – engineered new features based on key data points

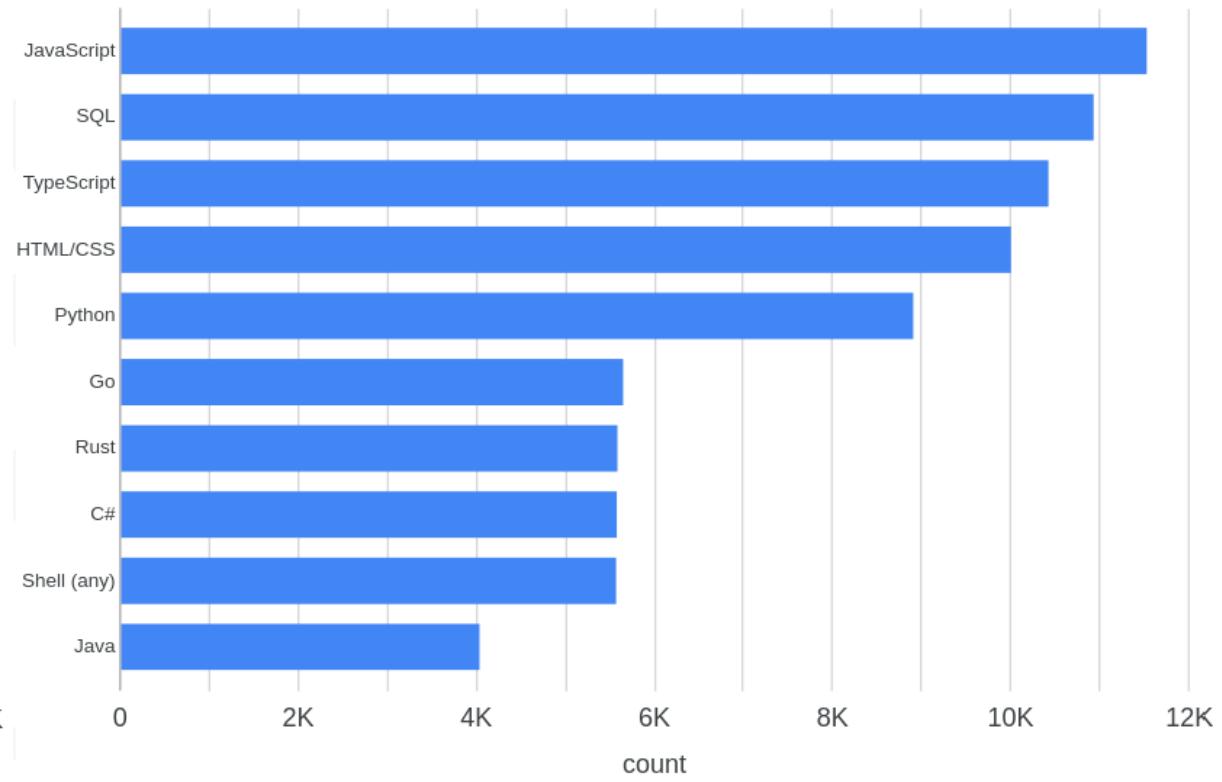

PROGRAMMING LANGUAGE TRENDS

Top 10 Languages Used

Top 10 Languages Desired Next Year

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- JavaScript, SQL, HTML/CSS, TypeScript, and Python will continue to be the most needed
- Rust was identified as desired for next year but not identified as a top known language

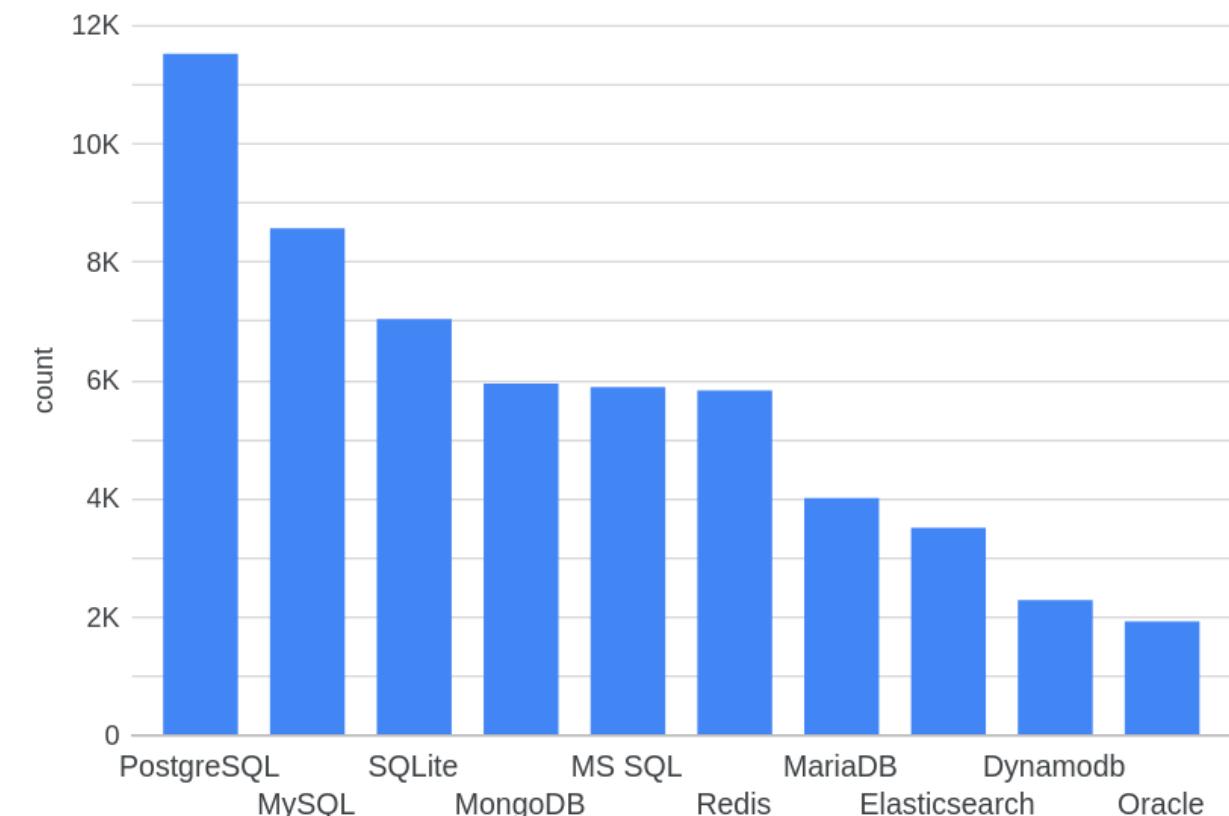

Implications

- No changes in the top 5 most sought after languages
- Rust is an emerging language

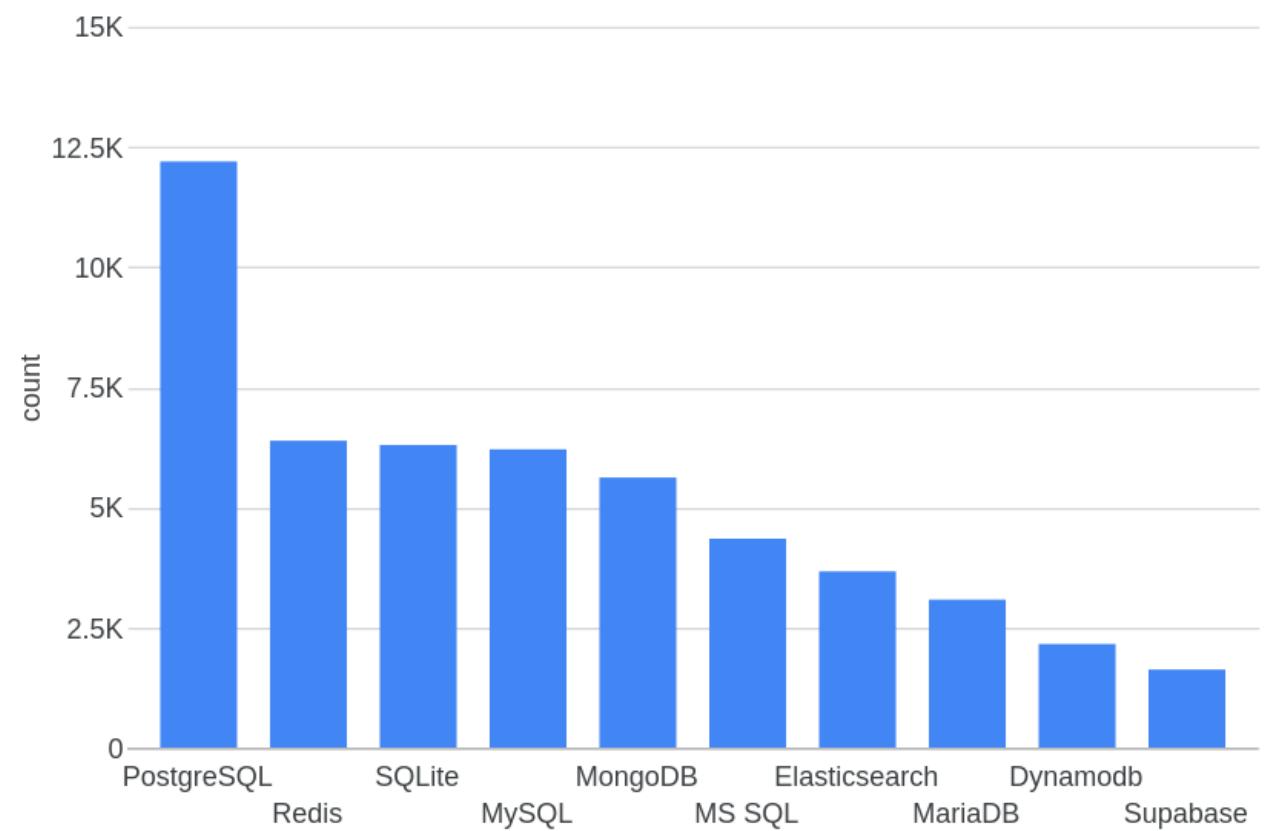

DATABASE TRENDS

Top 10 Databases Used

Top 10 Databases Desired Next Year

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- Supabase was identified as desired for next year but not identified as a top known database
- Redis was identified 2nd most as desired for next year, as opposed to only ranked 6th in known
- PostgreSQL dominates in needs, current and future

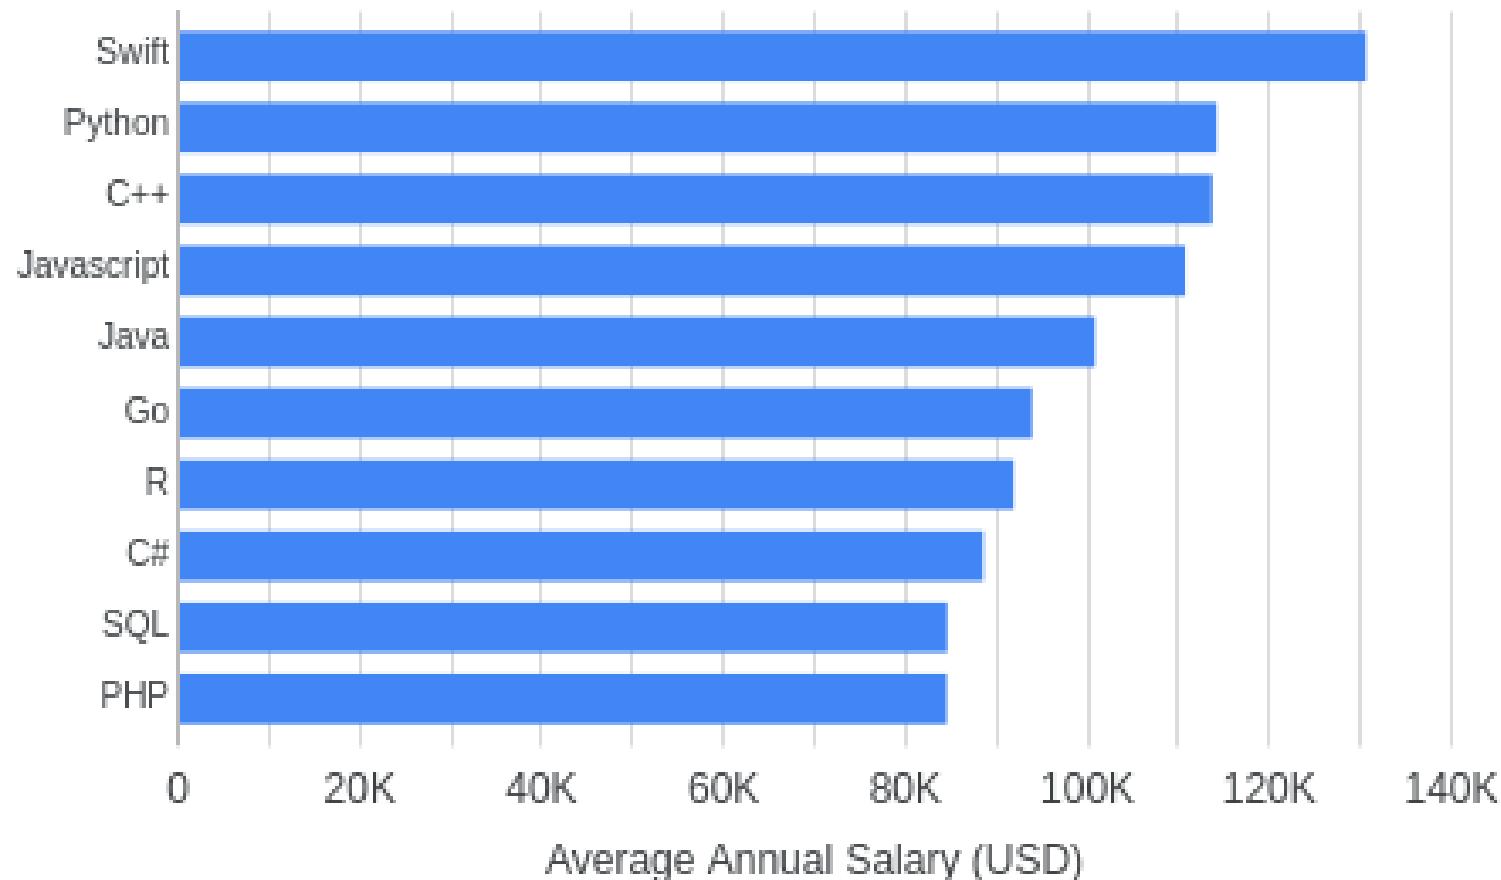

Implications

- Supabase is an emerging database
- Redis is forecasted to increase in popularity
- No database will surpass PostgreSQL's popularity next year

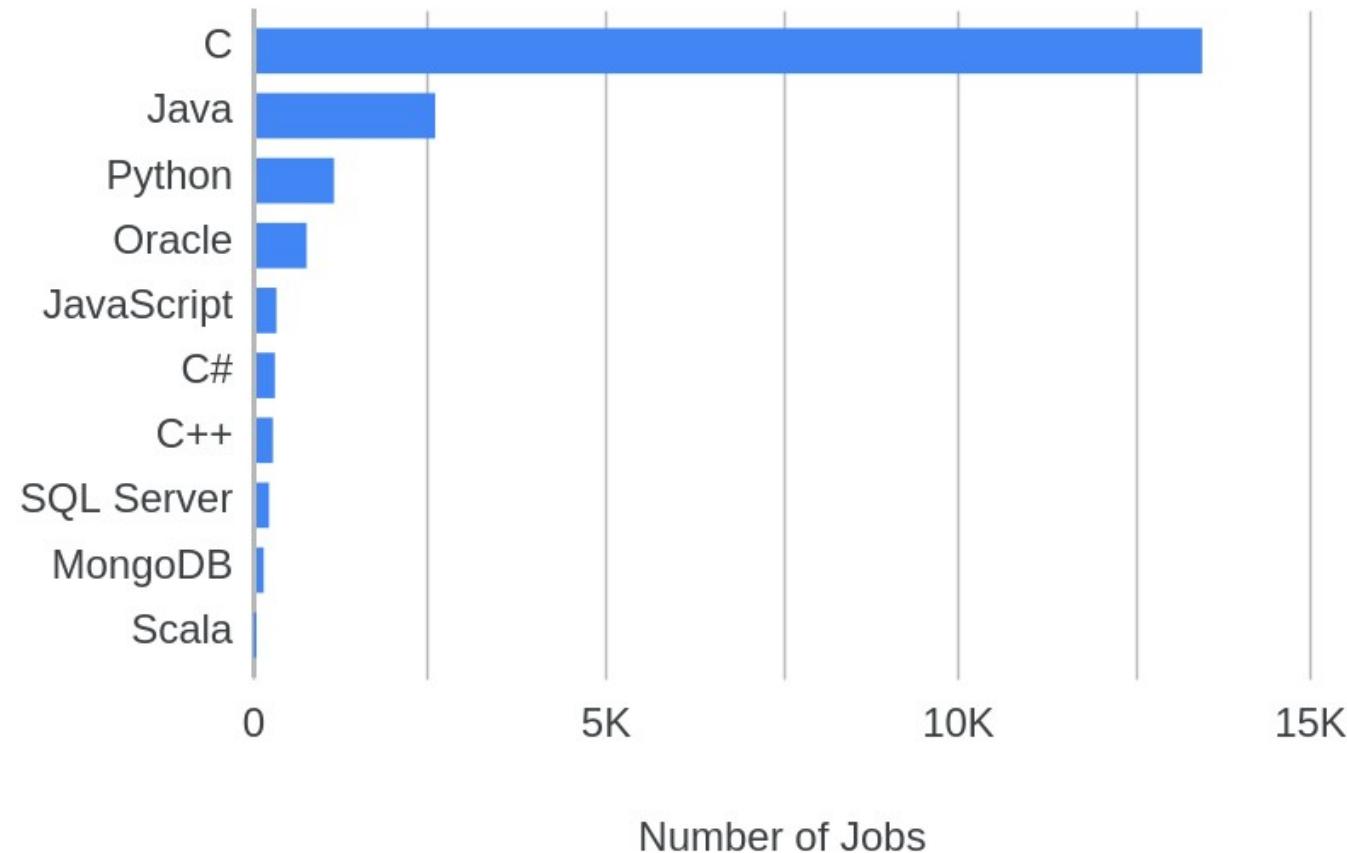

POPULAR LANGUAGES

Average Annual Salary (USD) by Language

JOB POSTINGS

Number of Jobs by Technology

DASHBOARD

DASHBOARD TAB 1

Current Technology Usage

Top 10 Languages Used

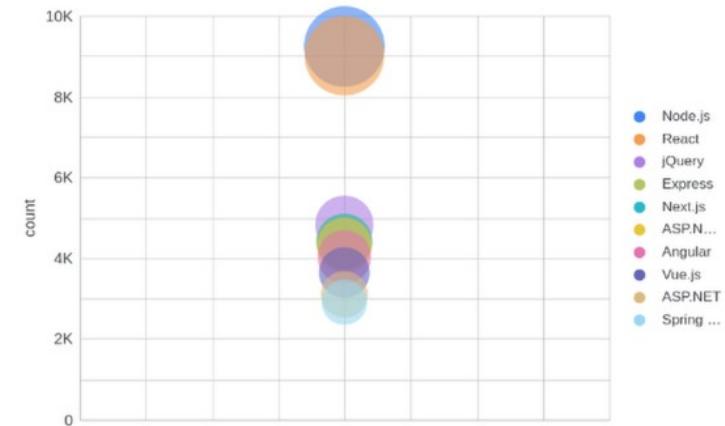

Top 10 Databases Used

Top 10 Platforms Used

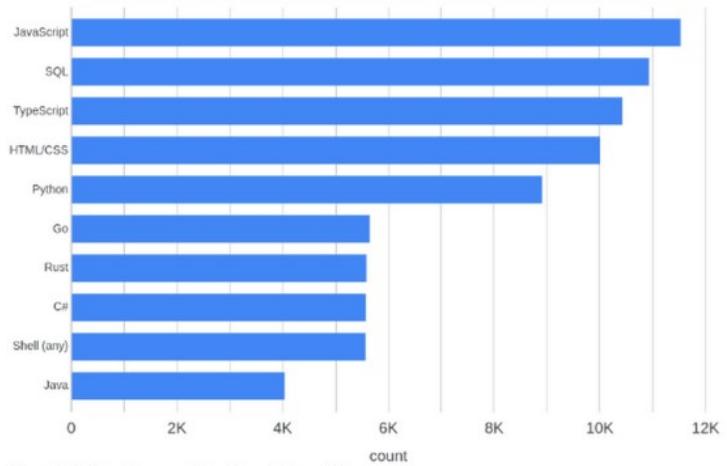

Top 10 Web Frameworks Used

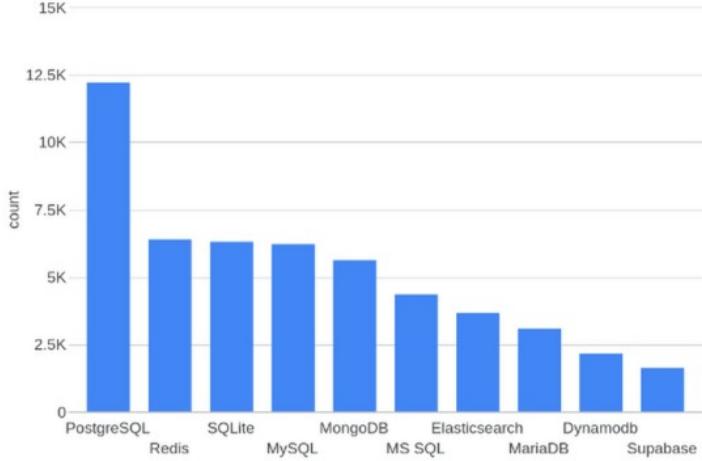

DASHBOARD TAB 2

Future Technology Trends

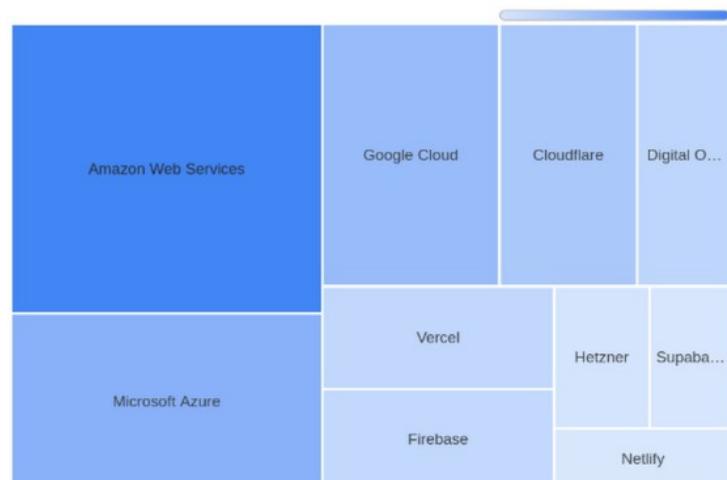

Top 10 Languages Desired Next Year

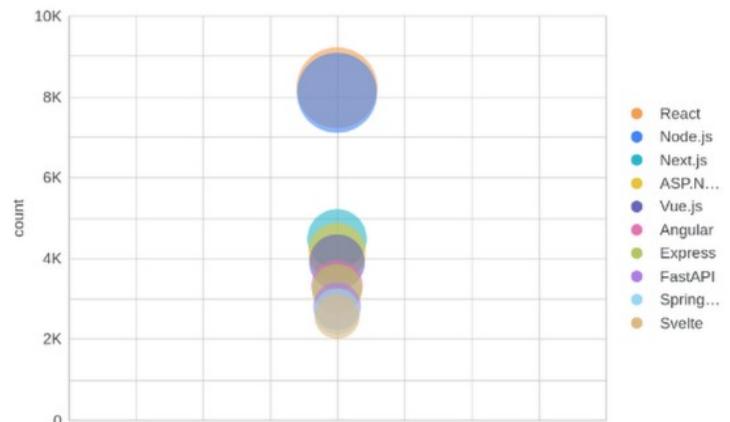

Top 10 Databases Desired Next Year

Top 10 Platforms Desired Next Year

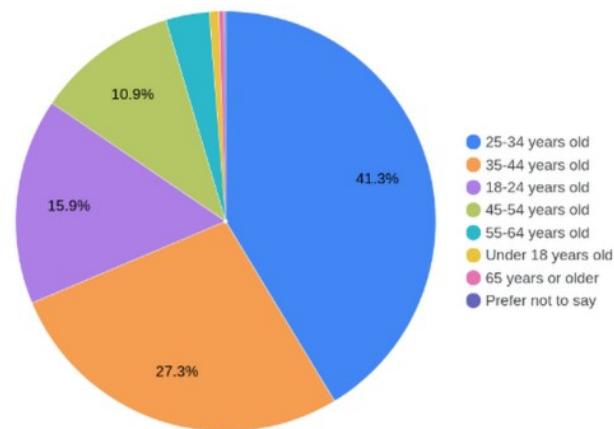

Top 10 Web Frameworks Desired Next Year

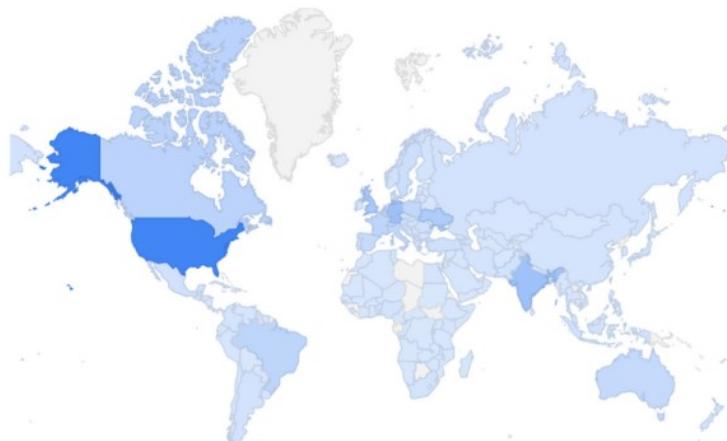

DASHBOARD TAB 3

Demographics

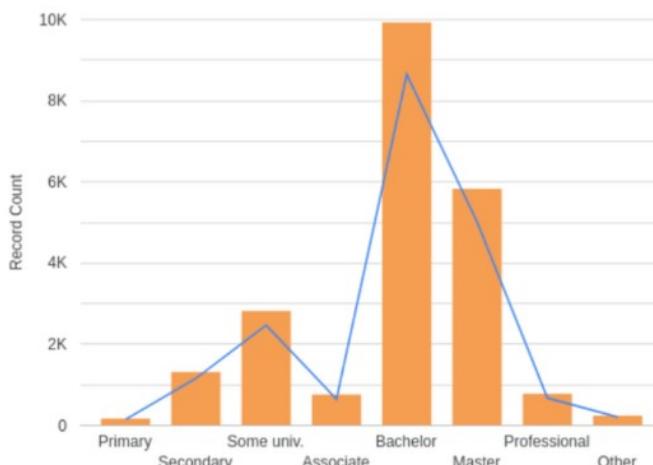

Respondents by Age

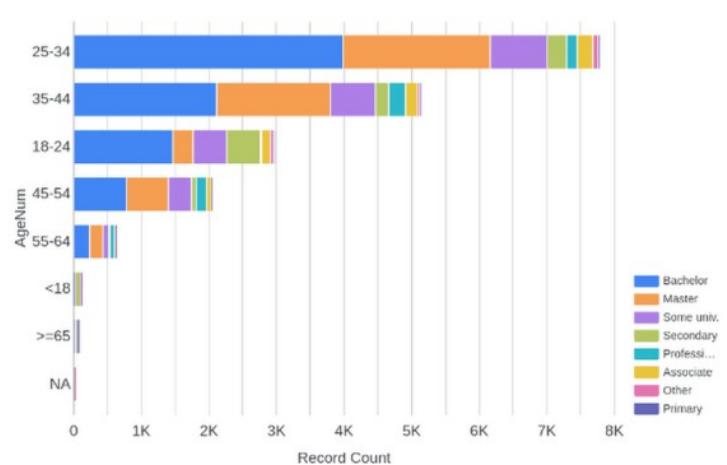

Respondent Count by Country

Respondent Distribution by Education Level

Respondent Count by Age and Education Level

OVERALL FINDINGS & IMPLICATIONS

Findings

- Rust appears only in top desired languages
- Supabase appears only in top desired databases
- Demographics show wide coverage of age, location, and education
- Number of respondents is statistically significant (see Appendix B)

Implications

- Rust is emerging tech
- Supabase is emerging tech
- Survey results are representative of global population

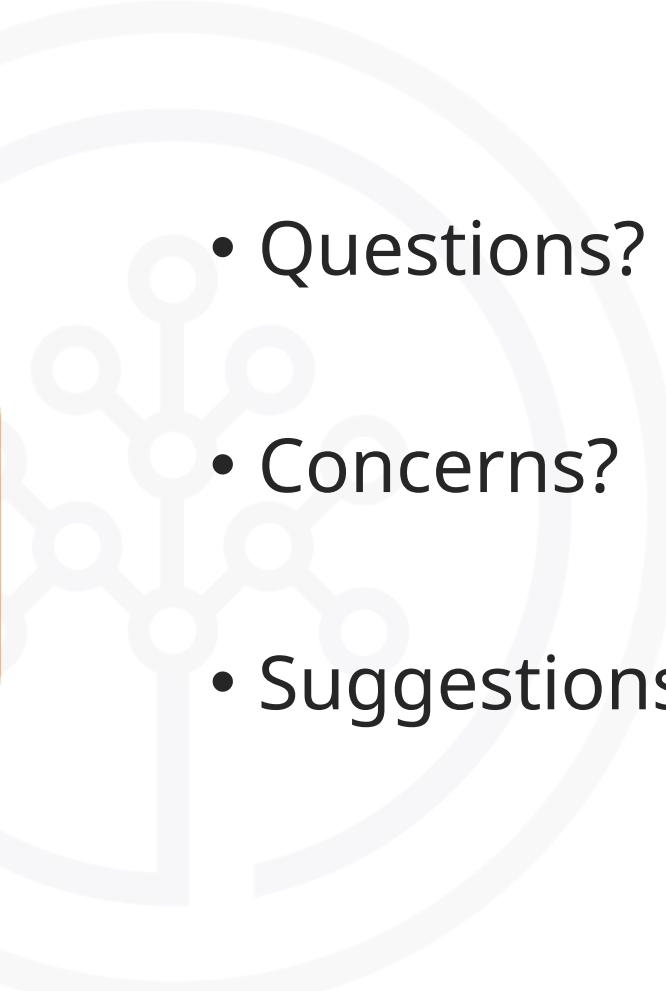

CONCLUSION

- Language Rust and database Supabase are emerging technologies which are likely to require future skill requirements
- Database Redis will increase notably in skill requirements

DISCUSSION

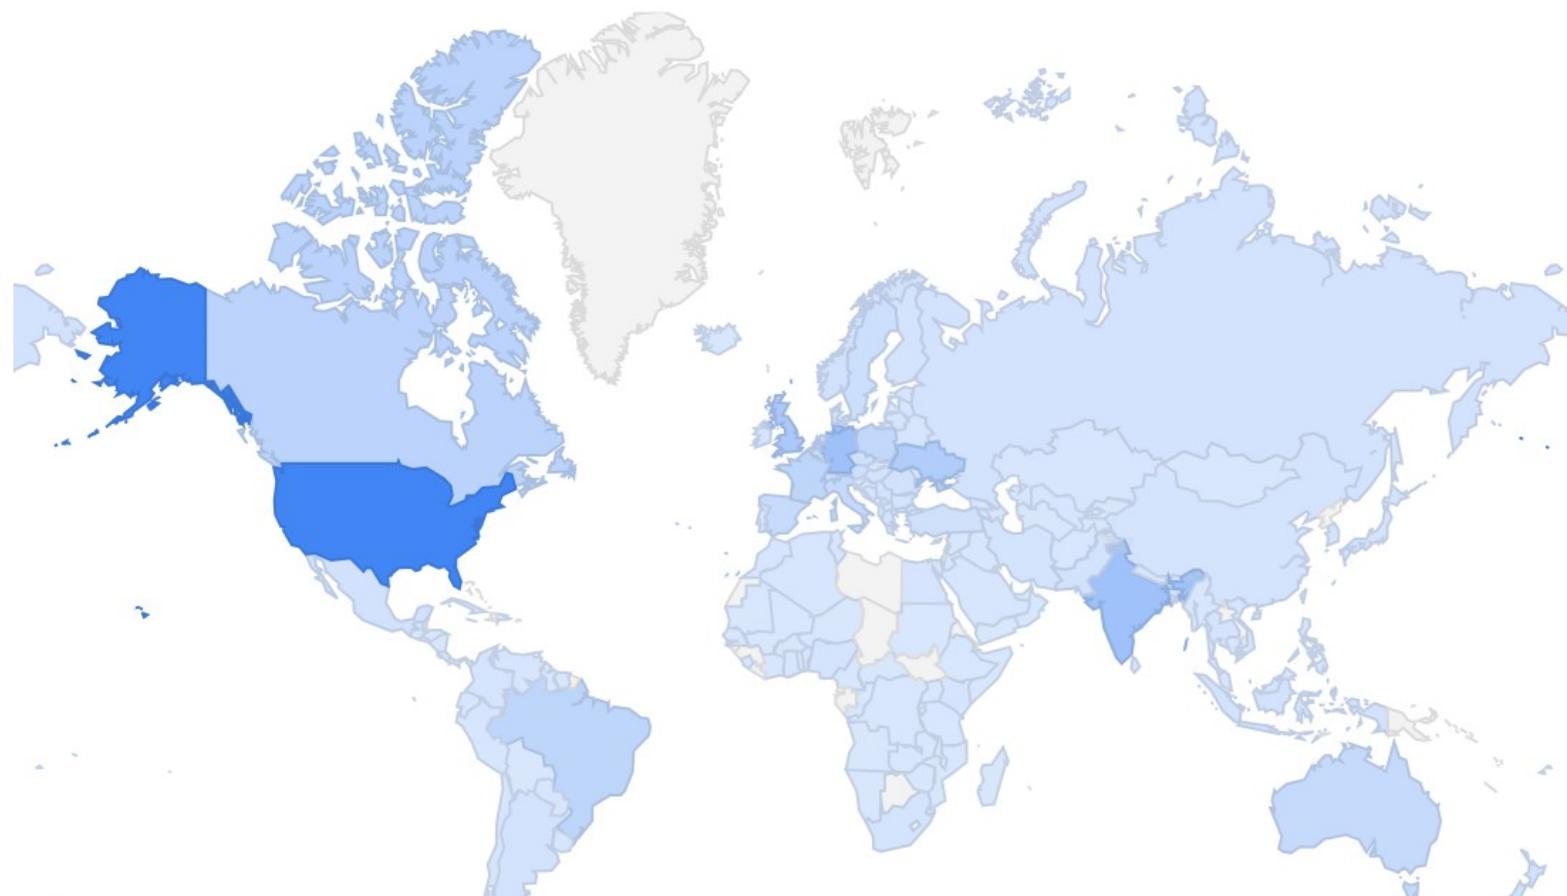

- Questions?
- Concerns?
- Suggestions?

APPENDIX A: GLOBAL RESPONDENT DISTRIBUTION

Respondent Count by Country

APPENDIX B: Statistical Significance in Survey

Global Population of Developers (jetbrains.com):

19.6 M

Stack Overflow Survey Respondents Count:

18,845
